PREPFORCE

3 Days Course

2950€

NSE 8 - ADVANCED FORTINET TECHNOLOGIES PREPARATION ONLY BOOTCAMP

OVERVIEW

This three days course will focus on all the tasks relevant to Fortinet Advanced Technologies products. The training will not focus on any Fortinet core products including FortiGate, FortiAnalyzer or FortiManager. All the rest of advanced technologies will have a step-by-step understanding on the tasks to be configured and their solutions.

A full walk-through guide will be provided along side with the solution guide during the bootcamp.

ADDITIONAL LAB

It can be provided with an additional cost. For more information, please send us an email at **training@prepforce.eu**

PRE-REQUISITES

It is recommended that students have working experience with Fortinet products and possess at least NSE 4 level certification.

OBJECTIVES

Upon completion of this course, students will be able to:

• Design, configure, and troubleshoot complex networks and IT Security scenarios with Fortinet Advanced Products;

• Configure and operate Advanced Fortinet Products and solutions, such as, FortiSandbox, FortiADC, FortiAuthenticator, FortiMail, FortiWeb and FortiVoice Enterprise;
